## What is Permanent Residency in Canada?

A permanent resident is someone who has been given permanent resident status by immigrating to Canada, but is not a Canadian citizen. Permanent residents are citizens of other countries.

Refugees who are resettled from overseas become permanent residents through the Government-Assisted Refugee Program or the Private Sponsorship of Refugees Program.

Someone who makes a refugee claim in Canada does not become a permanent resident at that time. To become one, the Immigration and Refugee Board must first approve their claim. Then, they must apply for and get permanent resident status.

## How to immigrate?

There are many different ways a person can move to Canada. Each immigration program has its own eligibility criteria. The most popular 7 programs to migrate Canada are: -

### 1. Express Entry

This program is ideal for skilled immigrants who intent on settling permanently in Canada. There are further three immigration programs an individual can choose from under Express Entry.

#### **Federal Skilled Worker Program**

To migrate to Canada through this program, the applicant must score a minimum of 67 points on the Comprehensive Ranking System. This system takes 6 factors into account; age, education, experience, language skills, arranged employment in Canada and adaptability.

In terms of language, English and French are the official languages of Canada. To prove language proficiency, the applicant must take an approved language test. The Canadian Language Benchmarks (CLB) or Niveaux de compétence Linguistique Canadien (NCLC) are used to measure proficiency in English and French respectively.

A minimum level of CLB 7 or NCLC 7 is required for the first official language. To get points for the second official language, the applicant must achieve a minimum level of CLB 5 or NCLC 5.

### **Federal Skilled Trades Program**

**To be eligible, the applicant must,**

- Plan on living outside the Quebec province
- Achieve a minimum level of CLB 5 for listening and speaking and CLB 4 for reading and writing
- Have at least 2 years of full-time work experience or equivalent part-time work experience
- Meet the job requirements for a skilled trade as defined by the National Occupational Classification (NOC)
- Have an offer of full-time employment for at least 1 year

### **Canadian Experience Class**

**To be eligible for this program the applicant must meet the below criteria:**

- He must have at least 12 months of full-time skilled work experience in Canada in the past three years or its equivalent in part-time experience. Self-employment and work experience gained while studying does not count.
- He must meet the language levels needed for the job in terms of speaking, listening, reading and writing.
- He must plan on living outside Quebec.

## 2. Provincial Nominee Program (PNP)

Most territories and provinces in Canada can nominate immigrants in the Provincial Nominee Program (PNP). These immigrants must live and work in the province they have been nominated by.

Each province has its own eligibility criteria for the program. While some provinces may design their programs to attract students and business people, others may target skilled or semi-skilled workers. Some provinces run Express Entry programs.

To migrate to Canada via the PNP the applicant must first apply for a nomination to the desired province. Once nominated, they may then apply for permanent residency to the IRCC.

## 3. Quebec-Selected Skilled Worker Program

This province (Quebec) has its own rules for immigration.

There are two stages to this program:

**Stage 1:** Apply for the government of Quebec for a certificate of selection showing that you have been accepted as an immigrant.

**Stage 2:** Apply to the Immigration, Refugees and Citizenship Canada (IRCC) for permanent residence.

## 4. Start-up Visa Program

To migrate to Canada through this program the following criteria must be met.

- The applicant must have a business that qualifies for the program
- The business must be supported by an approved Investor organization.
- The applicant must attain at least level 5 proficiency in English or French
- The applicant must have enough money to sustain oneself and dependents

## 5. Family Sponsored Visa Program

Canadian citizens, permanent residents and people registered in Canada as Indians under the Canadian Indian Act above the age of 18 years can sponsor relatives who want to migrate to Canada.

A spouse, common-law partner or conjugal partner can be sponsored as long as they are over the age of 18 years and the sponsor shares a genuine relationship with the applicant. The spouse or common-law partner must live with the applicant to be eligible.

In the case of a conjugal partner, the relationship should have lasted at least 1 year. The applicant's dependent children can also be sponsored to migrate to Canada.

Parents and grandparents can be sponsored as long as the sponsor is able to support them financially and ensure that they do not need government financial aid.

In the case of adopting children from another country, the adoption process must be completed before sponsoring the child. Any other person who is related by blood or adoption may also be sponsored to migrate to Canada.
